

# National Center for Research Resources

NIH-NCRR  
1 of 2

- Administers, fosters, and supports research for the development and support of multi-categorical research resources needed on an institutional, regional, national, or international basis for health-related research. Programs are carried out through:
  - Research grants, research and development contracts, and individual and institutional research training awards;
  - Cooperation and collaboration with organizations and institutions engaged in multi-categorical research resources activities; and
  - Collection and dissemination of information on research and findings in these areas.
